

Urban Connect

A revolution in corporate mobility

in official partnership with  SBB CFF FFS

Change
Mobility

Change
the World

This is what you are facing – let's tackle it together

Mandatory Climate Reporting

By 2024 large Swiss companies have to report emissions and set climate targets including corporate mobility.

Mobility Complexity

Your employees want convenience & freedom in commuting, resulting in different platforms and difficult expense reporting.

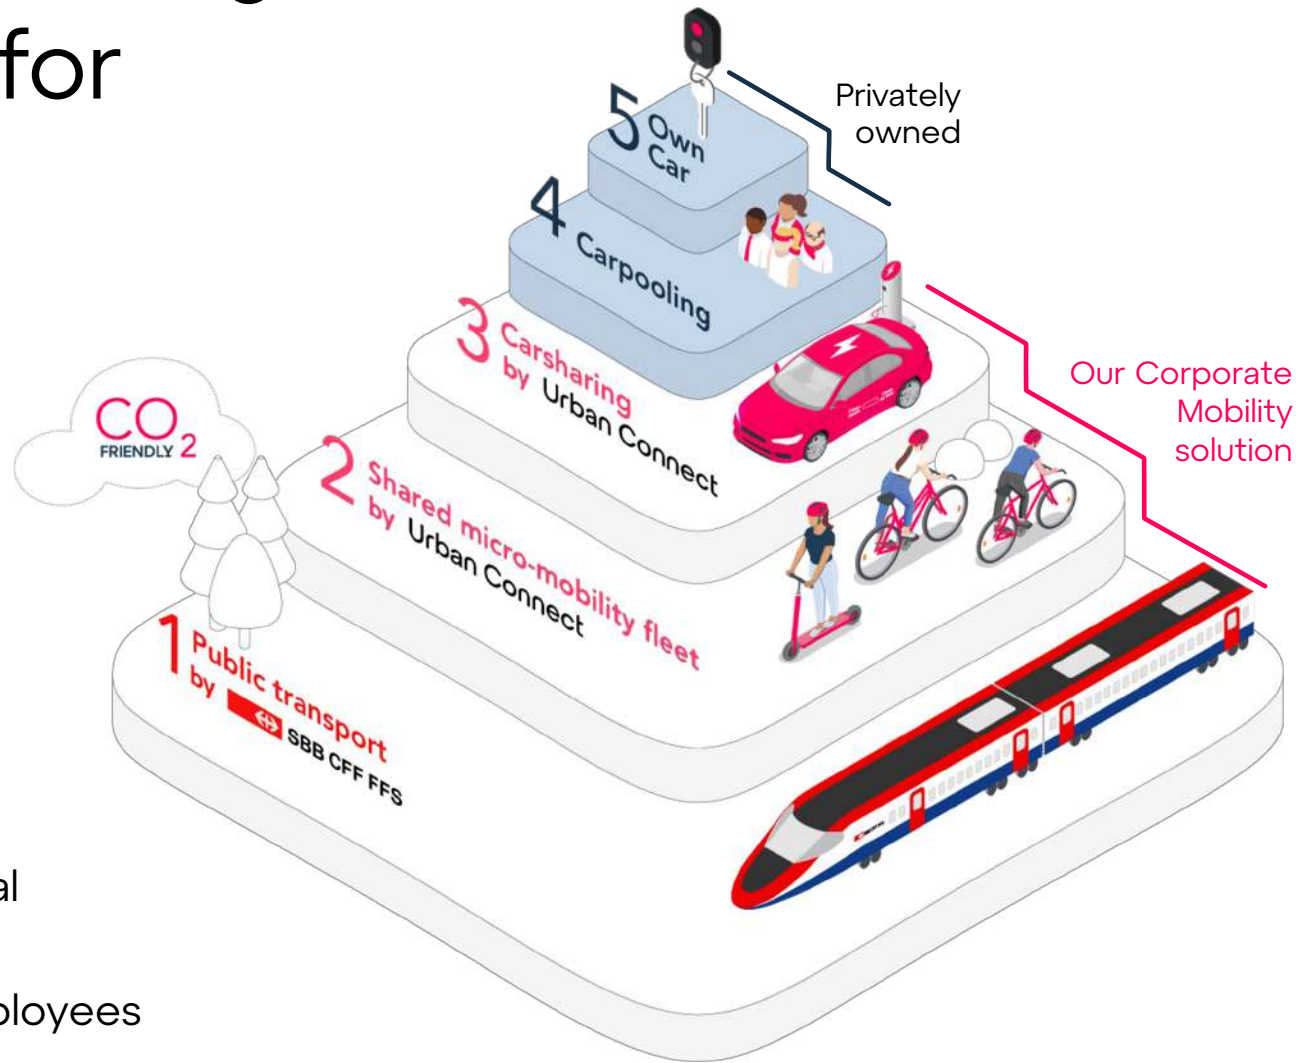

Private Ownership

Employees need to be incentivized and have easy access to shared, sustainable & multi-modal solutions.

ONE platform incentivizing sustainable mobility for employees'

Mobility-as-a-Service in five service pillars

We believe companies can lead the shift towards a low-carbon economy

Mobility Budget leading the shift towards a low-carbon economy

Mobility Budget

Empower your employees with a monthly allowance to spend on a variety of mobility options.

Micro-Mobility Access

- Premium vehicles
- **Booking via App**
- Full-service offering

Corporate Carsharing

- Premium e-cars
- API-based, non-invasive software solution
- **Keyless use**, booking via app
- Climate tracking

Public Transportation Ticketing

- **Seamless invoicing** and ticketing via app
- Data-driven climate tracking
- Official Partner of  **SBB CFF FFS** for corporate mobility solutions

Parking Management

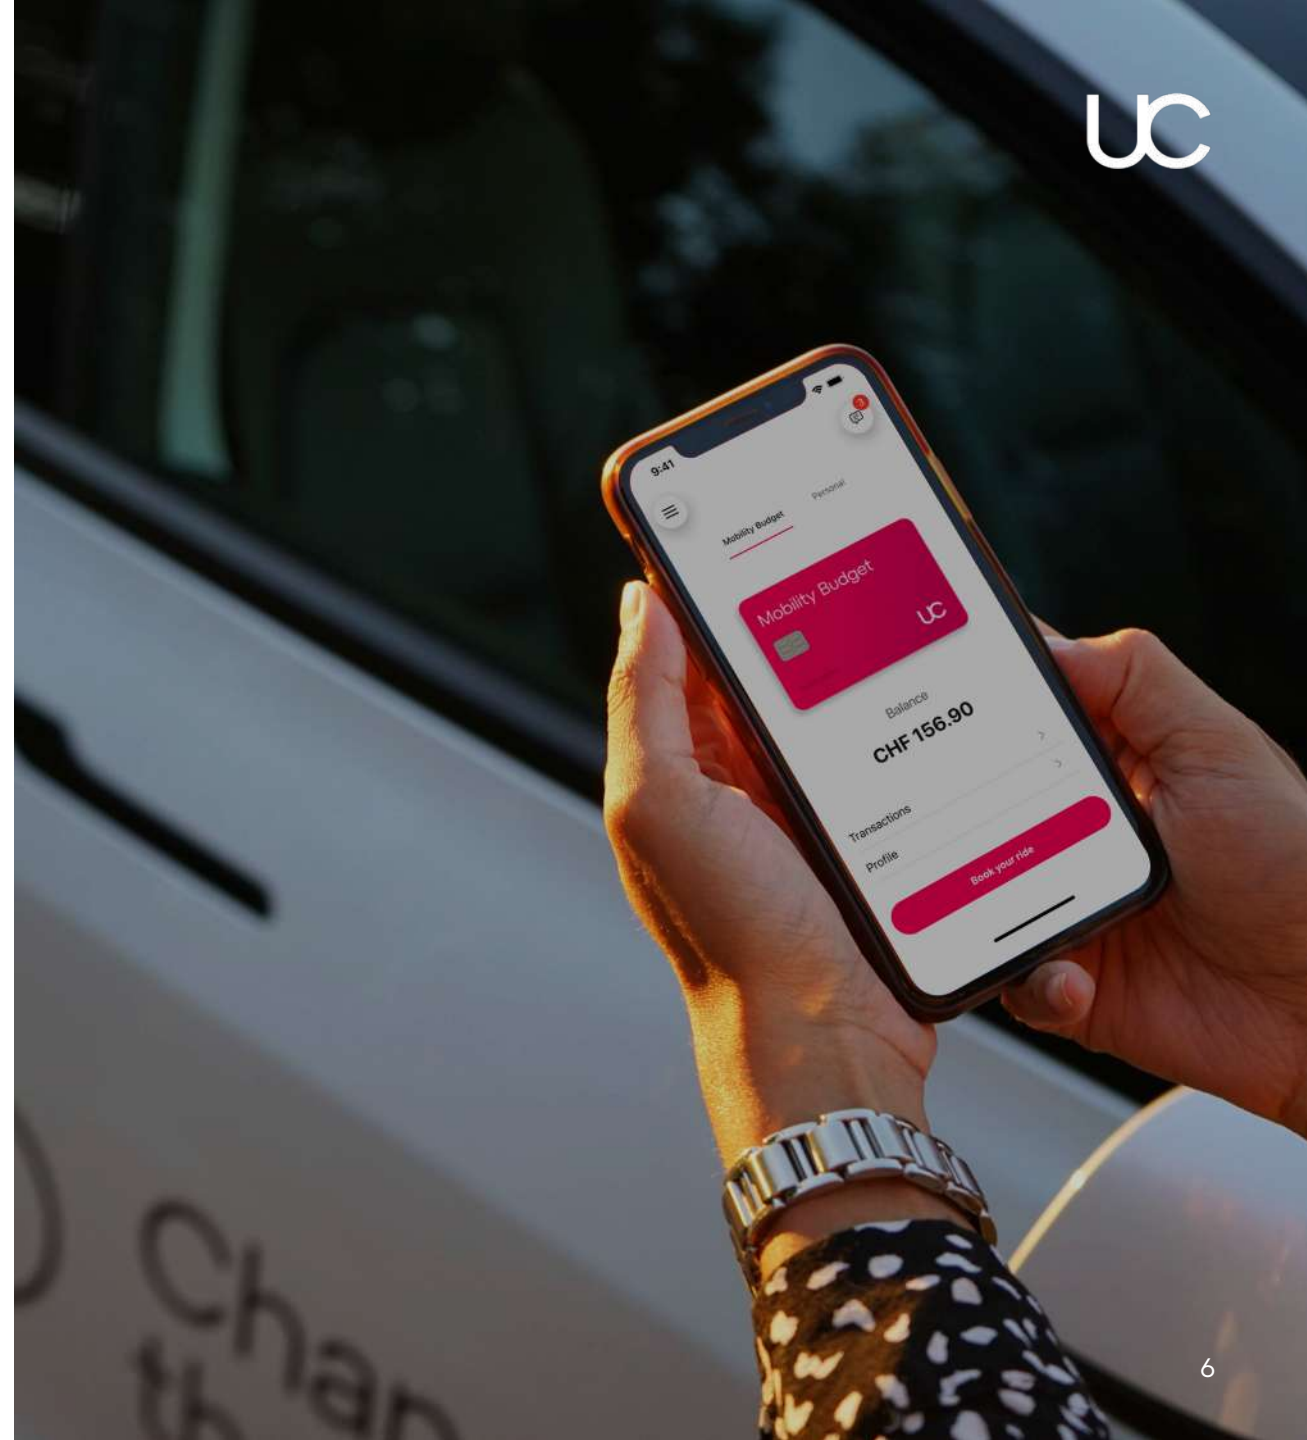

- Book and **reserve your parking** spot via the app
- Enhance your real-estate asset utilisation and optimise fleet composition

Virtual Card Integration

- Use **virtual card for payments** with selected mobility providers

The key benefits of a multi-modal solution

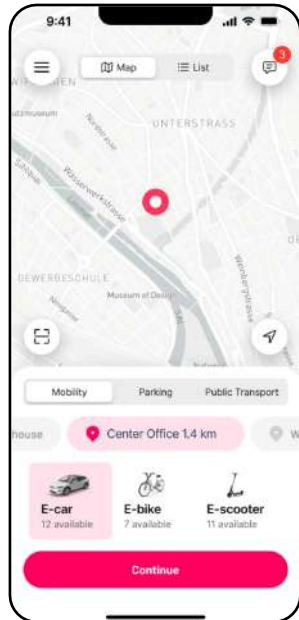

- ① One-Stop-Shop
- 📁 Saving cost and frustrations
- 🌱 Incentivize low-carbon mobility options
- 😊 Increase employee satisfaction
- 📈 Data transparency

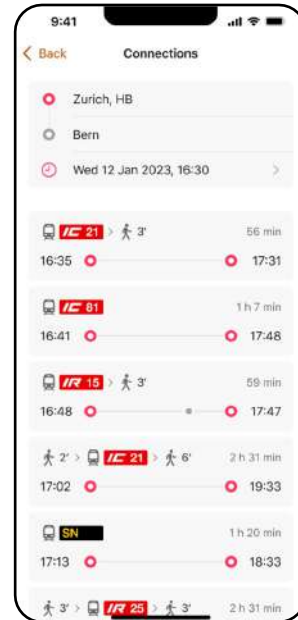

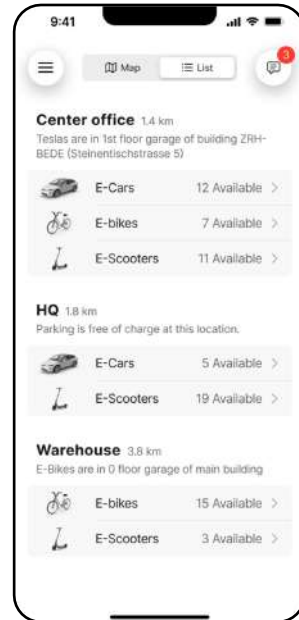

How it works – Convenience & Quality ensuring simple access to all modes of transport!

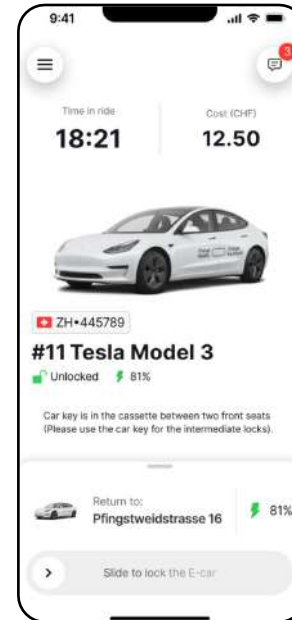

1 Select Transport mode in the App

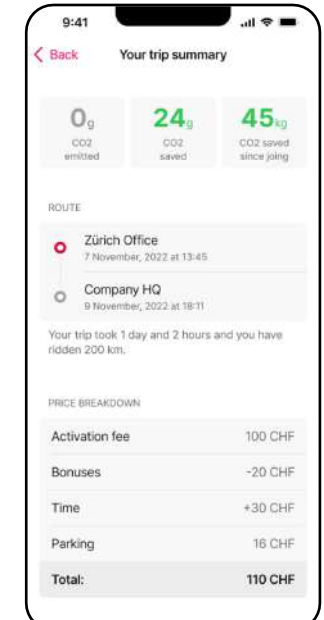

2 Enter your trip details, select vehicle or ticket and nature of the trip (private / business)

3 Booking summary and information, including the ticket

4 Trip details and climate figures
